

**A Double-Blind Flexible Dose Study of Escitalopram in Pediatric Patients with Major Depressive Disorder**

PI: Shashi Bhatia, M.D.

Does your teen experience depressed mood, loss of energy and worthlessness most of the day everyday and agree to experiencing these feelings?

The Creighton University Department of Psychiatry is currently conducting a research study for teen depression. To be eligible, your child must be:

- Be between the ages of 12-17 years of age
- Be healthy
- Have no other psychiatric diagnosis
- Be able to attend weekly appointments for the first 6 weeks
